

Our products

LABARTINO

EVERY TRADITION HAS A BEGINNING

CUSTOM-MADE

The company's founding idea is the customization of the products to satisfy all customer needs through the production and manufacturing of CUSTOM-MADE upholstered furniture. Every single is hand-stitched joining traditional and modern technologies, craftsmanship and innovative design together. Our products are designed for the customer's taste thanks to a versatile modular system adapting also size and coating.

In this catalogue there are only some of our proposals for upholstered. All products are completely customizable in terms of size, modularity and the choice of coatings that may vary according to the needs of the customer.

In 1976 we founded Labartino with a single purpose: to create sofas, armchairs, mattresses and colorful, innovative and customizable furnishing accessories. Since then we have always tried to create objects that celebrate the textile, inspire our laboratories and give warmth, substance and elegance to the spaces of our customers.

Our made in Italy is authentic. All products are made in Puglia and the materials used are selected with care and passion. Our product is made with a serious commitment to quality and attention to detail and finish. Human experience is at the heart of our projects and we like to observe the customer's instinct to customize and touch the pieces Labartino, to enjoy their materiality and comfort and pleasure that offers.

The design of Labartino is contamination, born from wonder. Ours is design in motion. Moving towards people, moving towards us, towards the future.

Our entire collection is visible on Labartino.it.

Sofà

Sofas are important furnishing elements in a house or an office. Thanks to their design, the choice of materials, the type of covering and its colour, they give character to any type of environment creating a particular atmosphere: they are, in other words, furnishing elements that can be noticed, that do not go unnoticed and that characterise a space, being residential or professional. Design and style blend perfectly together with and high-quality materials, ensuring comfort and durability over time.
